

DKK CONSULTING INCORPORATED
Standard Practice Memo

Subject: Survey Monument Preservation

Purpose

This memo establishes the firm's standard practice for handling survey monuments encountered or disturbed during construction activities.

Policy

Any permanent survey monument disturbed, removed, or damaged during construction must be reset by a Florida-licensed professional surveyor within 30 days of substantial completion of the affected phase. The field crew must notify the project engineer within 24 hours of discovering a disturbed monument.

Documentation

A monument reset report, including recovered coordinates and a comparison to original survey data, must be filed with the project record set before final close-out.

Contact

Questions regarding this practice should be directed to the Survey Department at (561) 612-7312.
